shower screens

GUARANTEE

Thank you for choosing Supreme Shower Screens. For your peace of mind our shower screens and doors are proudly guaranteed against defects arising from faulty workmanship or materials for a period of one (1) year from the invoice date of the goods subject to the following conditions:

(A) The product has been installed in accordance with the relevant Australian Standards and recognised building practices.

(B) The product has been maintained in accordance with the Care and Maintenance Instructions overleaf.

(C) The product has not been subject to misuse, physical abuse or neglect.

(D) Manufacturing standards and tolerances are not deemed defects, nor are industry variations in the colour of the aluminium surface finish.

(E) Supreme shower screens assumes no liability for damage caused by cleaning solvents or brick cleaning acids.

(F) This Guarantee is limited to the repair or replacement of the faulty product at the company's discretion but does not extend to the installation or refinishing of a replacement product. No liability is accepted by Supreme Shower screens for personal injury, loss or claim or property damage, installation costs, material or other costs (whether special, consequential or otherwise) howsoever caused or arising whether direct or indirect.

(G) Only repairs carried out by Supreme shower screens personnel or authorised Supreme shower screen agents are covered by this Guarantee.

(H) Claims under this Guarantee should be made within one month of the defect arising in the product. Copies of documentation showing the purchase date of the product should be included with your written claim and forwarded to the office of Supreme shower screens.

(I) This guarantee is in addition to all other rights and remedies in respect of the Product to which you are entitled under the Trade Practice Act and similar State and Territory laws.

We are confident our products will perform to, if not exceed your expectations.

MAINTENANCE INSTRUCTIONS

Maintenance of Glass

All glass surfaces should be kept clean by prompt removal of all dirt and deposits. Clean water should be used and in some instances the addition of a small amount of mild detergent would be of some benefit. Thoroughly wash off any detergent residue with clean water. Do not under any circumstances use any form of abrasive cleaner as this may cause damage to the glass. Lightly sponge off any stubborn dirt being careful not to scratch the glass.

Maintenance of Power Coated & Anodised Aluminium

Cleaning is necessary if the fine finish of powder coated and anodised aluminium is to be preserved. Deterioration of the coating occurs mainly as a result of grime deposition and attack by contaminated moisture which contain salt and sulphur compounds. Deposited grime and contamination absorbs moisture like a sponge and holds it against the powder coated and anodised surfaces. This permits the attack to proceed thereby damaging the coating which cannot be restored. Do not use harsh chemicals. Clean water and a mild detergent. Thoroughly wash of any residue immediately.

Frequency of Cleaning

Under the worst conditions involving heavy grime deposition and atmospheric pollution (eg sulphur compounds or salt) more frequent cleaning is advisable.
The cleaning of powder coated and anodised material should be performed using hand cleaning and rinsing techniques. This should be achieved by using small amounts of clean water and recommended cleaning products. Do not under any circumstances use an abrasive type cleaning agent as this will severely damage the surface of the material. Thoroughly rinse off any detergent with clean water. Dry preferably with a chamois, or alternatively, a soft cloth. The cleaning of the product should be performed at a time that will allow the aluminium to dry quickly, preferably early in the morning. We recommend the use of: Kitten 'Glo-Wash' Turtle Wax 'Zip Wash' or RE-PO 'Superwash'. Should these products give less than the desired results Turtle Wax 'Ice Polish' or RE-PO 'Cream Polish' can be used as per the manufacturer's instructions.
